

the bill we started talking about, about estuaries, which is very important for economic development in my State, will also help the NEPs keep their management plans current by requiring them to be periodically reviewed and updated. This will make them more dynamic, more responsive to changing conditions in the estuaries. Updating the plans will include identifying estuary vulnerability, climate change impact, preparing adaptation responses, as well as working to educate the public on estuary health issues.

One such issue that is emerging as an important issue nationally is the role of toxins from plastics like flame retardants like Deca. Deca is found in increasing amounts in many coastal estuaries. While this legislation does not require the NEPs to address toxins like Deca, it does provide them with the opportunity to further consider the impacts and any actions, including education, that the NEP might take.

I am proud of the good work being done in Maine and across the Nation to protect and restore our estuaries. I urge my colleagues to support the rule and the underlying bill. I urge a “yes” on the previous question and the rule.

Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.
